

GET THE MOST OUT OF YOUR HEARING

Our latest advanced hearing aid WIDEX UNIQUE™ is designed to provide you with a fuller, richer soundscape - from the softest whispers to the exciting roar of the crowd. It removes unwanted noise and unexpected sounds and focuses on the voices you want to hear. And it lets you hear clear and detailed sound across the full range of today's complex listening situations, so you can get the most out of your hearing.

At Widex we know that sound quality is a vital factor in determining how much you actually use your hearing aid. That's why we work hard to find hearing solutions that capture all the important sounds you need.

Unique models and styles

UNIQUE is available in four Behind-The-Ear (BTE) models and three In-The-Ear models (ITE). Your hearing care professional can help you choose the ideal model for your specific hearing loss and lifestyle.

Behind-The-Ear models:

In-The-Ear models:

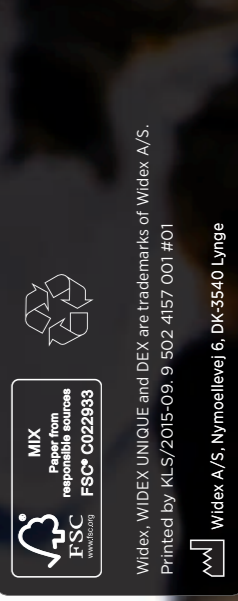

You can choose between up to 15 different colours for BTE models and three standard colours for ITE models.

COM-DEX

For hands-free streaming

A hands-free device for streaming high-quality sound from any mobile phone to hearing aids. Can be combined with the COM-DEX app for convenient control.

CALL-DEX

For discreet streaming from mobile phones

An ultra-compact device for streaming conversations from mobile phones to hearing aids; it simply inserts into the jack plug of the phone and is then ready to use.

RC-DEX

Your remote control

A stylish, compact and user-friendly remote control that gives users better control of selected hearing aid functions. Small enough to fit on a key ring.

TV-DEX

For enjoying tv

A palm-sized, user-friendly wireless assistive listening device purpose-built for enjoying TV and audio.

UNI-DEX

For plug and play mobile phone use

The UNI-DEX is a neck-worn plug and play solution for easy mobile phone use.

FM+DEX

For flexible streaming

A high quality streaming device that is small and discreet, and designed specifically for wireless hearing aids.
